PARIHARA: Conception

Sustainability is possibly the most used word of the past decade and will hopefully become second nature to all of us in the coming years. As we make a mind shift from a life of convenience to a life of environmentally conscious choices, sustainability will be the mantra that will impact all our daily choices.

Sustainable living is achieved by making informed choices that will reduce our individual and collective negative impact on the environment. It is our responsibility to leave the future generations with a livable planet.

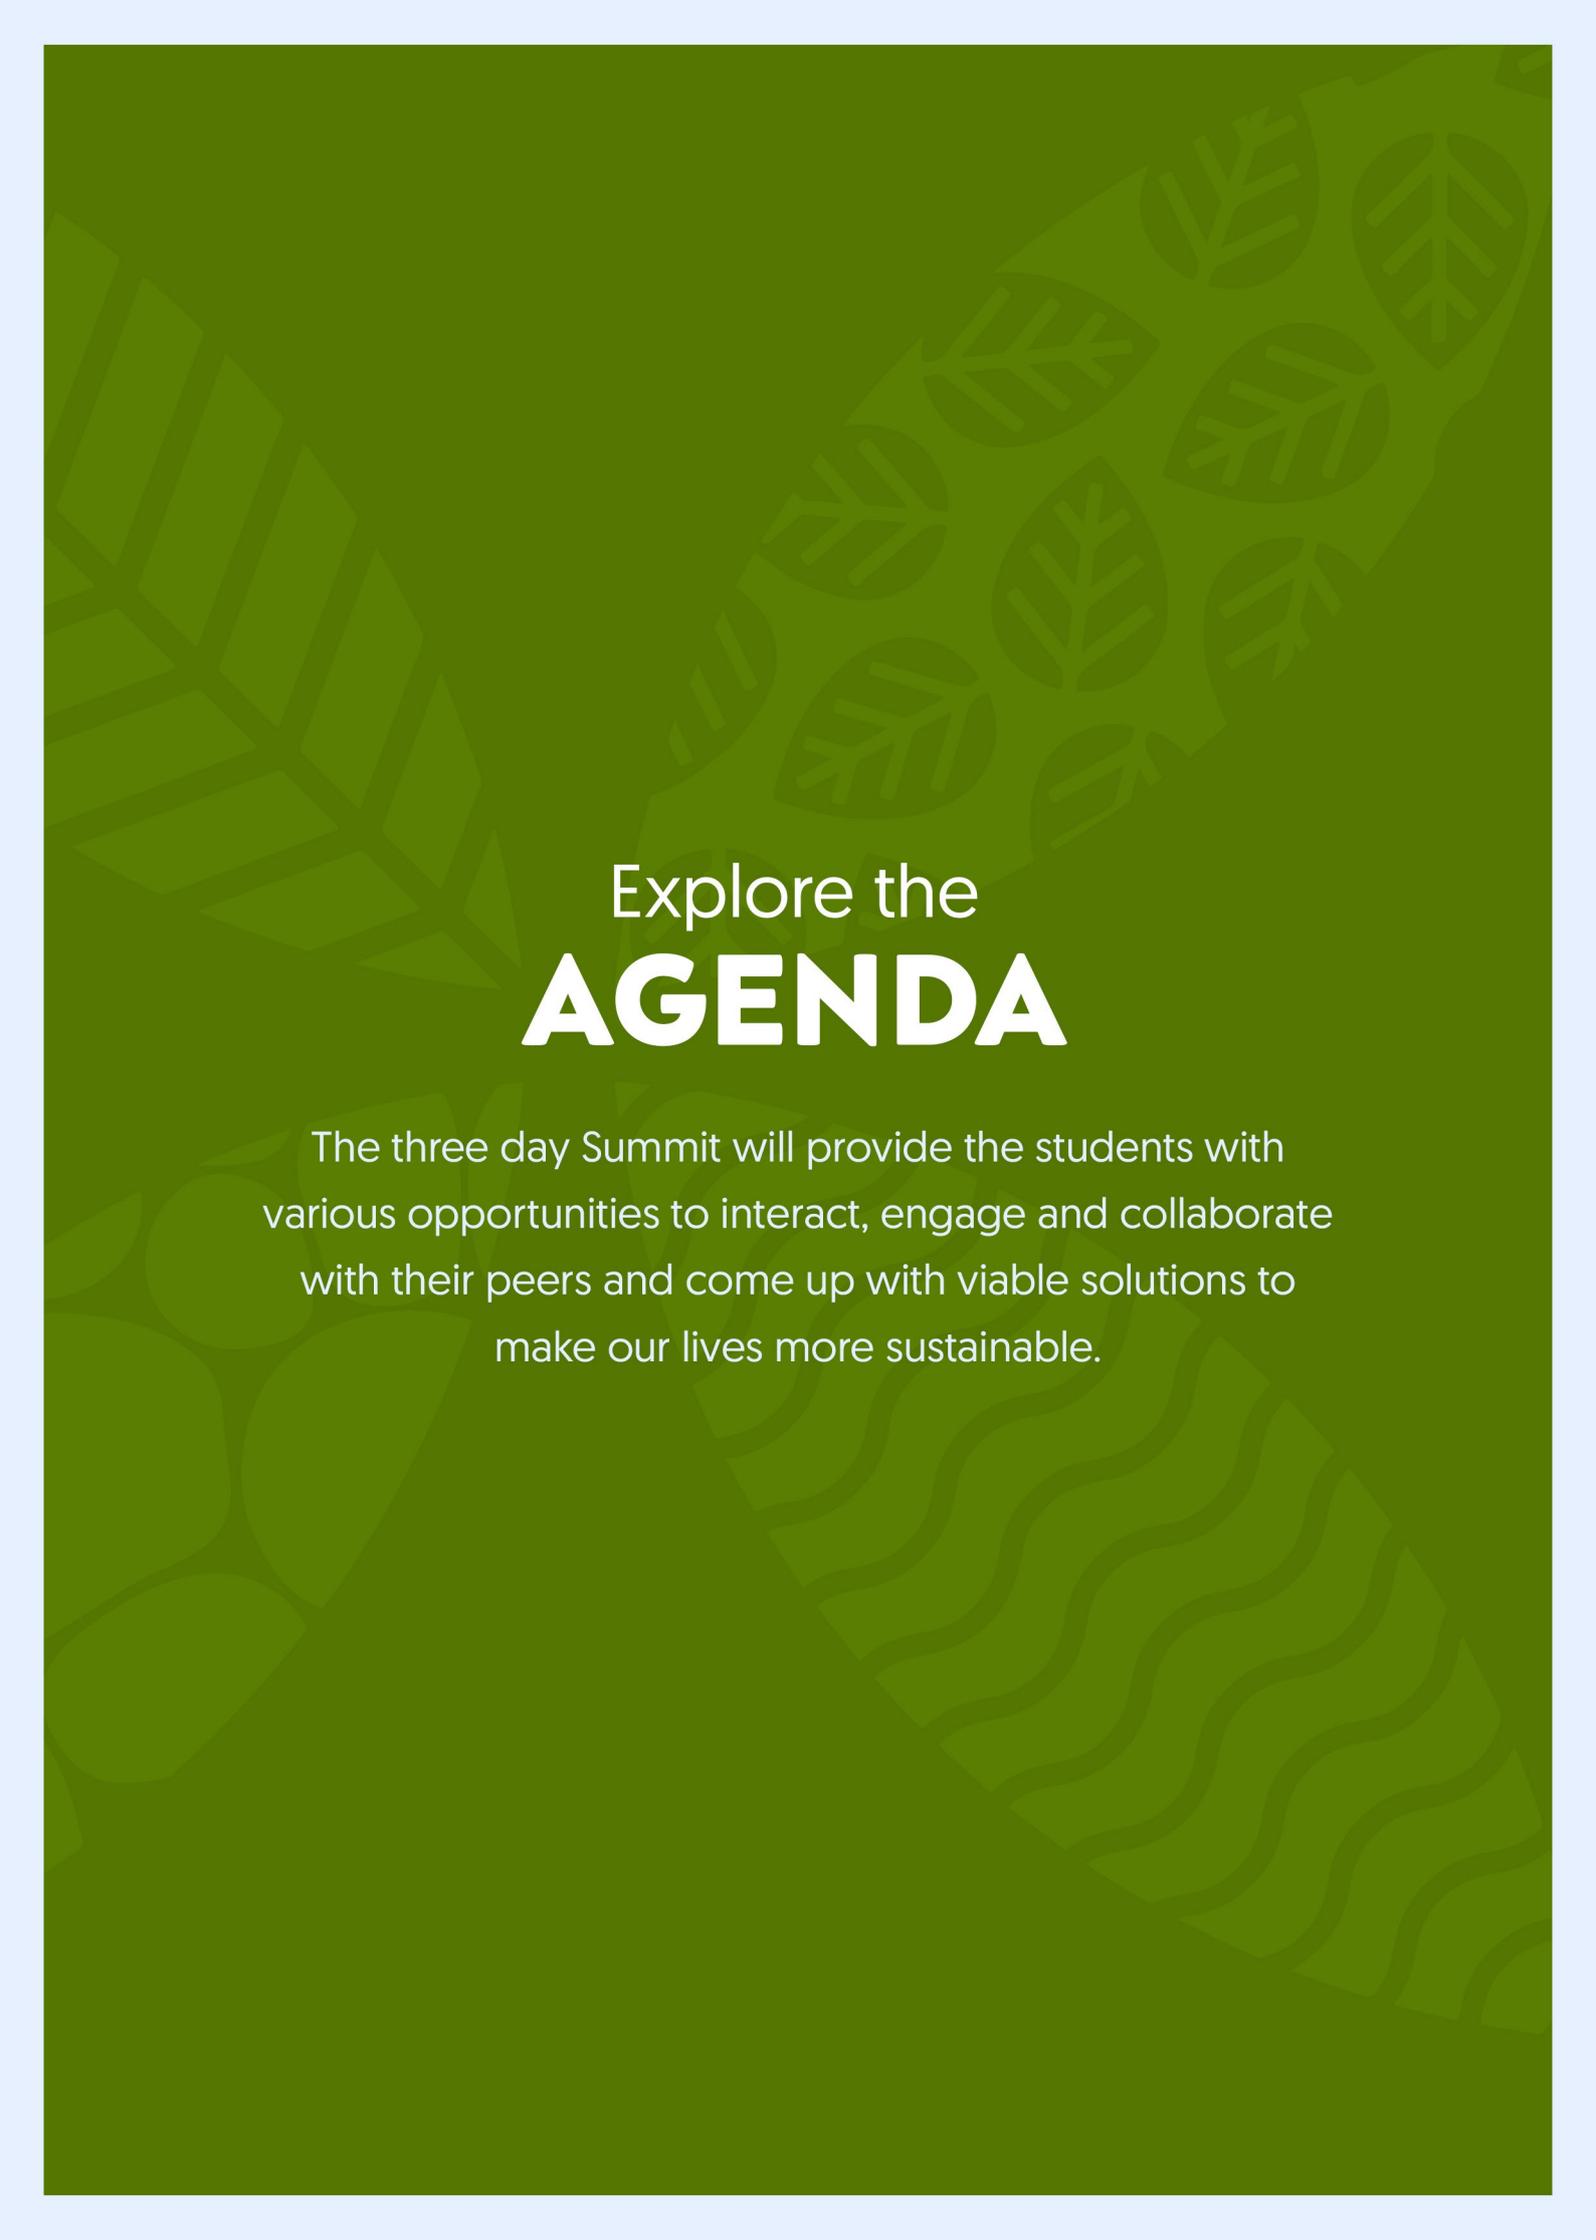

The HIXS Annual Summit 2024 – *Parihara* is designed to make all the participants think sustainable. The participants will work in the field of STEM, the Visual and Performing Arts, Languages and Individuals and Societies to address the central idea of living sustainable lives. The event includes opportunities for the deep thinkers, the communicators and our creative individuals to put their ideas in the form of academic papers, presentations, projects and performances under the guidance of experts in the field.

An entirely collaborative event, the Summit will encourage participants from different schools to work together in their area of interest and create a finished product at the end of three days. The final day will allow them to showcase their work to the wider audience.

We hope this summit will provide our young leaders of tomorrow with a platform to address this global issue with the seriousness it deserves. Looking forward to collaborating with you towards making our planet and our lives more sustainable.

The Summit Categories incorporate an interdisciplinary approach and includes STEM, Visual and Performing Arts, Individual and Societies (History, Geography, Psychology, Business Studies, Economics, Global Perspectives) as well as the Languages.

The background is a solid green color with a repeating pattern of stylized leaves and branches in a lighter shade of green. The leaves are arranged in a way that creates a sense of depth and movement.

Explore the **AGENDA**

The three day Summit will provide the students with various opportunities to interact, engage and collaborate with their peers and come up with viable solutions to make our lives more sustainable.

DAY
01

September 26
2024

EVENT 1

International Seminar on Sustainability 'Solutions for tomorrow'

Eligibility: Secondary School Students [Grades 9-12]

The event offers the students a platform to present **Academic Research Papers in an International Seminar**. These will be reviewed by a panel of experts and the selected papers will be published and recognised with an award. Please find the themes & sub-themes for the seminar on the next slide.

- Each paper can be created by a maximum of three authors
- Last date of abstract submission: 26th May 2024
- Abstracts acceptance shall be confirmed within one week of receiving the abstract
- Last date of paper submission: August 16, 2024
- Best paper will be awarded and published both for students and for teachers
- Paper Presentation Fees - ₹1,000/-

National Seminar on Sustainability

Main Theme: Solutions for tomorrow: with a focus on the UN SDG

Eligibility: Secondary School Students [Grades 9-12]

 1. Title
 2. Affiliation of the author [School name, country]
 3. Abstract [not more than 500 words]
 4. Key words [3-5 words]
 5. Main body - Introduction
- Literature Review
- Research Methodology
- Findings
- Inferences and application
- Limitations of research
- Conclusion
- References

EVENT 2

Eligibility: Grade 5 and above

- Students are required to sign up for the field of their choice
- Students will engage with experts in small groups in the field of STEM, Languages, Visual and Performing Arts and Individual and Societies and begin the work of ideation of the product
- Students will go into their groups as per their registration
- Student and teacher organizer will introduce the 2.5 day agenda
- Expert Talks, For eg- Expert interaction on how to prepare installation art on Day 1

DAY
02

**September 27
2024**

Students will work on creating the product, keeping the philosophy of experiential learning at the centre adhering to the belief that doing is learning. We believe that it is now time for students to transform their words into action.

Sneak Peak - Theatre production, Slam poetry, Panel discussion, Prototypes, Art Installations etc.

DAY
03

**September 28
2024**

Culmination

The final day of the summit will allow students to showcase their work on stage and/or through a gallery walk. This will enable students to share their ideas with the larger community and to kick start a collaborative partnership going forward.

The students will also get to interact with Incubation Centres to get funding for their ideas and products.
